In re: Methyl Tertiary Butyl Ether ("MTBE")

Products Liability Litigation

Master File No. 1:00-1989 MDL 1358 (SAS)

This Document Relates To:

The Honorable Shira A. Scheindlin

Commonwealth of Puerto Rico, et al. v. Shell Oil Co., et al., Case No. 07 Civ. 1-470 (SAS)

AMENDED DECLARATION OF BRYAN BARNHART IN SUPPORT OF PLAINTIFF'S OPPOSITION TO THE SHELL DEFENDANTS' MOTION FOR SUMMARY JUDGMENT

[WITH AGREED-UPON REDACTIONS OF EXHIBITS PREVIOUSLY FILED UNDER SEAL]

I, Bryan Barnhart, hereby declare:

- 1. I am an attorney duly admitted to practice law in the State of California and an associate with the firm of Miller & Axline, counsel of record for Plaintiff Commonwealth of Puerto Rico and the Commonwealth of Puerto Rico through the Environmental Quality Board ("EQB") in this matter. I declare the following facts of my own personal knowledge obtained through my service as Plaintiff's counsel and I could and would testify competently to the matters declared herein.
- 2. Attached as Exhibit 1 are true and correct copies of excerpts of the following deposition transcripts: (a) Angel Juan Olivera-Alemar (August 12, 2013); Ian Charman<sup>1</sup> (November 21, 2013); and (c) Jonathan D. Watson, Vol. 2 (November 14, 2013).
- 3. Attached as Exhibit 2 are true and correct copies of excerpts of the following deposition transcripts: (a) Patrick M. Bloomer, 30(b)(6) Representative for Shell Oil Company and Shell Trading (US) Company (November 14, 2013); (b) Deposition transcript of Curtis Stanley (May 6, 1999), and (c) George Dominguez (September 12, 2000); and (d) Luis Pagan-Rodriguez, Special Aide to the Secretary of the Department of Consumer Affairs (November 14, 2013).
- 4. Attached as Exhibit 3 are true and correct copies of excerpts of the following deposition transcripts: (a) Ivan Cintron-Vasquez (September 27, 2013); (b) David Lewis (November 22, 2013); and (c) Brenda Torano (September 26, 2013).

<sup>&</sup>lt;sup>1</sup>The following exhibits have, by agreement with affected parties, been redacted:

Ex. 1 (b) November 21, 2013 Deposition Trans. of Ian Charman.

Ex. 2 (a) November 13, 2013 Deposition Trans. of Patrick Bloomer.

I declare under penalty of perjury under the laws of the United States of America and the State of California that the foregoing is true and correct.

Executed this 6th day of January, 2015, at Sacramento, California.

Bryan Barnhart

1	not necessarily are service stations.	1	you spend the money.
2	Q. So industrial customers that may have	2	Q. As an auditor, were you auditing only
3	their own tanks at there facility.	3	purchase and sale of gasoline, or did you audit all
4	A. Yes.	4	money that was spent by Shell Puerto Rico?
5	Q. Okay.	5	A. Any type of expenditures and expenses.
6	With respect to service stations, was it always	6	Q. Did you oversee expenditure and expenses
7	branded Shell gasoline distributed at the rack?	7	for remediation, environmental cleanups?
8	A. Yes, we always delivered to Shell service	8	A. No.
9	stations.	9	Q. Okay.
10	Q. Did-	10	I was asking you earlier about distributions at
11	A. In the time I worked.	11	the rack at Catano.
12	Q. In the time you worked at Catano.	12	Is it "Cantano" or "Catano"?
13	A. At Catano terminal.	13	A. "Catano."
14	Q. Okay.	14	Q. "Catano."
15	At the time you worked at Catano, did Shell	15	You said you had consumers. Did that include
16	distribute unbranded gasoline through the rack?	16	any public agencies? Did you have public agency
17	A. No, no. Only branded.	17	customers at Catano?
18	Q. I guess I should ask this.	18	<ol> <li>A. I think we have a few government agencies,</li> </ol>
19	How long did you work at the Catano terminal?	19	but usually they're really small.
20	A. For seven years.	20	Q. Okay.
21	Q. So up to '85?	21	Do you remember which agencies?
22	A. From '85, mid summer '85, to mid summer	22	A. Some municipalities, but due to the
23	192.	23	difficulty of collecting from them, usually they are
24	Q. So when you started in the so in the	24	really small amount of that type of customers.
25	accounting department, where were you based when you	25	Q. Okay.
1	30		32
1	worked in the accounting department in '72?	1	How long in mid 1992, was Catano still one of
2	A. In the accounting department? I was in	2	the main distribution points for Shell for gasoline?
3	the central office.	3	A. In 1992, we-more than 70 percent of the
4	Q. Okay.	4	distribution in 1992 was still from Catano.
5	And how long did you remain in the accounting	5	Q. Did Catano receive gasoline via marine at
6	department?	6	any time when you were working there?
7	A. For seven years, until-	7	A. Yes. By the time I went to Catano in '85,
8	Q. Until you went to the Catano	8	CORCO was not supplying any type of product, so almost
9	A. The Catano terminal. Yes.	9	all the product came from the sen, from dock.
10	Q. Okay.	10	Q. And that was by barge?
11	So you said for a while in the accounting	11	A. A few of them. Most of them on tankers.
12	department you worked on gasoline purchases.	12	Q. What was the tankage at Catano that Shell
13	Did your responsibilities in the accounting	13	had?
14	department expand at any time, or did you always work	14	A. "What was "?
15	on gasoline purchases?	15	Q. What was the tankage.
16	A. No, I worked for about six months in the	16	A. What do you mean by "the tankage"?
17	accounts payable department and then I moved on to	17 18	Q. Valume.
18 19	the— to work as an internal auditor for the next six	19	A. We have a lot of volume there, but I don't
20	and a half years.	20	remember exact. I can't make some type of calculation,
I	Q. And what did you do as an internal auditor?	20	but the biggest tank we got was for regular gasoline.
	AUGUROL (	<u>*</u>	It has a capacity of four million gallons. That's 100
21		22	harvale
22	A. Oh, we reviewed the processes, the	22	barrels.
22 23	A. Oh, we reviewed the processes, the procedures, to be sure that they are complied.	23	Q. Wow.
22	A. Oh, we reviewed the processes, the	23 24	

			40
	41		43
1	Q. Okay.	1	Q. And what about the health and safety
2	So we know it was before 2006, right?	2	advisor? Do you recall?
3	A. Yes.	3	A. It's more difficult, because we have about
4	Q. Okay.	4	three or four. I don't know exactly which one was at
8	And what was your responsibility as a marketing	5	which time.
6	analyst?	6	Q. Do you remember Yamina Rivera?
7	A. We need to recollect all the statistic	7	A. "Yamira"?
8	information in order to help the management make	8	Q. Yamira Rivera.
9	decisions. Marketing decisions, of course.	9	A. Rivera. She's working with us now in Sol,
10	Q. And when you say statistical information,	10	but she was not with us when we were Shell.
11	is that about sales at the service stations?	11	Q. Okay.
12	A. Sales of service stations, projections,	12	So it wouldn't have been her who was the health
13	expenses.	13	and safety and environmental advisor?
14	Q. Did you have any involvement with the or	14	A. No. No.
15	oversee any tank improvements at service stations?	15	Q. Okay.
16	A. Tank storage improvement at service	16	But you can't remember the name of the person.
17	stations?	17	A. No.
18	Q. Yes.	18	Q. If you do remember later today, just let
19	A. No.	19	me know and we'll have you put that on the record,
20	Q. Were you aware of improvements in	20	okay?
21	underground storage tanks at service stations, any	21	A. Okay.
22	project that Shell had for that?	22	Q. Did you work with Mr. Marrero on the
23	A. As a program, not.	23	expenses for the upgrade program at the stations?
24	Q. So you weren't aware of any program	24	A. No, because those are usually capital
25	implemented by Shell Puerto Rico to upgrade or change	25	projects and you need approval outside Puerto Rico in
ĺ	42		44
1	the underground storage tanks at service stations.	1	order to have the expenditures, and those are worked

SHELL OIL COMPANY, et al., Defendants.

NOVEMBER 21, 2013

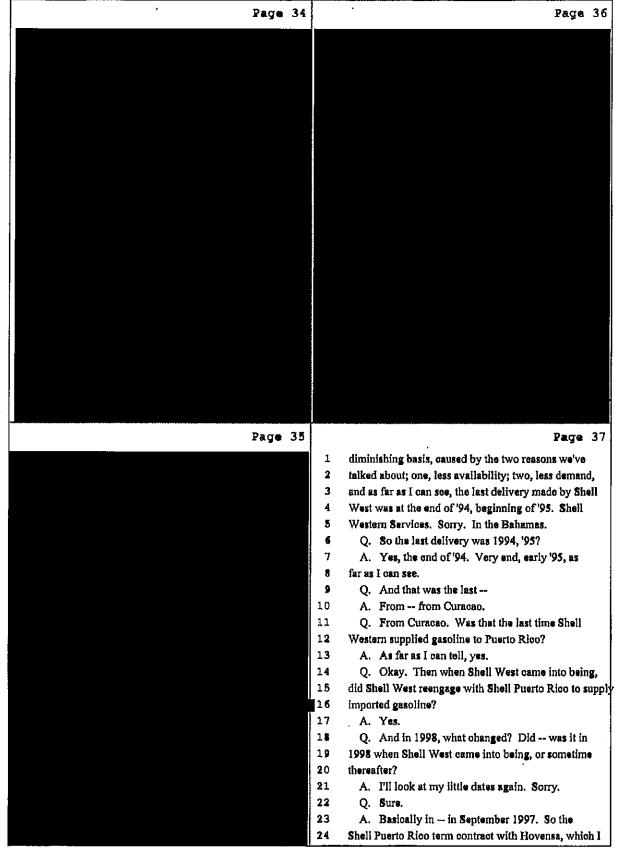

CONFIDENTIAL - FOR OUTSIDE COUNSEL ONLY

Videotaped deposition of IAN CHARMAN, as 30(b)(6) REPRESENTATIVE OF SHELL CHEMICAL YABUCOA, INC., SHELL OIL COMPANY, SHELL TRADING (US) COMPANY; SHELL WESTERN SUPPLY AND TRADING, AND SHELL INTERNATIONAL PETROLEUM COMPANY, held at Sedgwick, LLC, Fitzwilliam House, 10 St. Mary Axe, London, EC3A 8BF, England, commencing at 9:12 a.m., on the above date, before Joan L. Pitt, Registered Merit Reporter, Certified Realtime Reporter, and Professional Reporter.

GOLKOW TECHNOLOGIES, INC. 877.370.3377 ph | 917.591.5672 fax deps@golkow.com

Page 32 1 nominate enough to fulfill your obligations under your contracts with, for example, Hovensa? 3 A. Yes, and Maraven before that, yes. Q. Okay. Did Shell Western Services have a 5 contract with Maraven, or was it a different entity that had the contract with Maraven for supply to Puerto Rico? 7 A. It was SIPC, because Shell Western Services 8 from the Bahamas was just a brokerage office for SITCO, 9 which is a division of SIPC. 10 Q. Okay. Was it SITCO, or was it SIPC? A. I believe the contract said SITCO. You have 11 12 the copies of them anyway, so --13 Q. Okay. So in the 1990s, you were mentioning two things happened. The first, as I understood it, was 14 15 that some domestic production, meaning on-island Puerto Rico production, came into the market. What was the 16 17 other thing that occurred in the 1990s? 18 A. The other one at the same time was that the 19 availabilities from Curação were being - the 20 availabilities for sale to third parties such as Shell 21 Trading were being reduced by Maraven, so there was less 22 product available to Shell in Curacao. 23 Q. Okay. And was that made up -- did Shell West make up - Shell Western make up any of the difference 24

9 (Pages 30 to 33)

10 (Pages 34 to 37)

Page 38 know the date of because Rick showed me the papers, was 2 February 1995, and Shell Puerto Rico had a term contract with Hovensa through -- until September 1997 --3 Q. Okay. 5 A. - when that term contract was assigned to Shell Western in Barbados. 7 Just before you ask me another question, on the 8 1st of January, 1998, that term contract with Hovensa was undertaken by Shell West Barbados in its own right, 9 10 and from that date on, the 1st of January, '98, onwards, 11 it was Shell West Barbados supplying from Hovensa into 12 Shell Puerto Rico until such time as the Catano dock 13 closed. 14 Q. Okay. So to make sure I understand, so 15 Shell -- to your understanding, Shell Puerto Rico outsourced directly with Hovensa from February '95 until 16 17 September '97? 18 A. Yes. 19 Q. In September '97, the contract was assigned by 20 Shell Puerto Rico to Shell Western? 21 A. Yes. That's West in Barbados, yes. 22 Q. And then when Shell West came into being, was that contract assigned again, or was -- did Shell West 23 24 initiate a new contract?

11 (Pages 38 to 41)

Page 66 lubricants or anything like that. 2 Q. Okay. And this was Shell International Trading 3 Company, which you referred to as SITCO? 4 A. SITCO, yes. 5 Q. Okay. And at the time that this was entered. into, why was it entered into directly between SITCO and 7 Shell Company (Puerto Rico) rather than Shell Company 8 (Puerto Rico) and Shell Western? 9 A. Shell West was a broker, a brokering company 10 operating for and on behalf of SITCO. 11 Q. Okay. 12 MR. WALLACE: Forgive me, because I think you 13 just said Shell West. 14 A. Sorry. Shell Western Services, yes. 15 Q. Okay. And do you know how long this contract 16 was in effect for? 17 A. No. It says it's an evergreen contract. I 18 don't know how long it lasted for. 19 Q. Okay. And for the record, would you explain 20 what evergreen means? 21 A. It means that the contract carries on for 22 eternity, if you like, unless one or the other party 23 gives notice under the conditions of the contract. 24 Q. And did you see in any of the materials that

18 (Pages 66 to 69)

```
Page 76
      what, 6 or 7 or something.
 1
 2
         Q. Okay. I'm going to mark as the next document
 3
      some specifications from Colonial Pipeline Company.
  4
         A. Thank you very much.
 5
            (Charman Exhibit No. 7 was marked for
 6
      identification.)
 7
         Q. For the record, I've marked as Exhibit 7 a
      document Colonial Pipeline Company. It's dated October
 9
      2003. It's my understanding this was produced in the
10
      MDL. It's Bates stamped CPC0003146.
            I'll give you a moment to look at this.
11
12
13
         Q. And whenever you're ready.
14
         A. No, I'm fine.
15
         Q. Okay. Had you - when you were working for
      Shell Western or Shell West, were you -- did you have
16
17
      the Colonial Pipeline specifications available to you?
18
         A. Shell West would -- me personally, no, but
19
      Shell West would have done, yes.
20
         Q. Okay. And so if you look on what I've marked
21
      as Exhibit 7, at Grade V --
22
         A. Yes.
23
         Q. - it says: "Conventional - 93 Octane," and it
24
      says: "Oxygenate allowed."
                                                 Page 77
 1
            Do you see that?
 2
         A. I do.
 3
            MR. WALLACE: I'm going to object to - and if
  4
         you'll permit me, I'll just take a standing
 5
         objection to questions about this document as
  6
         lacking foundation.
 7
         Q. And is that consistent with your understanding
 8
      or recollection that a V2 or Colonial grade conventional
 9
      could allow an oxygenate to be present?
10
            MR. WALLACE: I'll object to the form and
11
         object it calls for speculation.
12
         A. And I don't know the answer.
13
         Q. Okay. Do you know if at any time prior to
      the -- let me ask it this way. Was there any contract
14
      that you saw where use of MTBE for gasoline destined for
15
1.6
      Puerto Rico was actually prohibited?
17
            MR, WALLACE: I'm sorry. Could I trouble you
18
         to reread that?
19
            (The following question was read by the
20
         reporter.)
21
22
            Q. Was there any contract that you saw where
23
         use of MTBH for gasoline destined for Puerto Rico
24
         was actually prohibited?
```

20 (Pages 74 to 77)

```
Page 78
 1
 2
            MR. WALLACE: Object to the form.
 Ì
         Q. Go ahead.
            MR. WALLACE: You can go shead and answer.
 5
         A. Sorry. I -- no, is the short answer. These
      are the contracts I've seen, and it doesn't prohibit it
 7
      within this contract, I don't think.
 8
         Q. Okay. Did you see any -- any written agreement
 9
      or contract for gasoline destined for Puerto Rico,
10
      either a contract with Shell Puerto Rice or a contract
11
      with a supplier, which prohibited the addition of MTBE
12
      to the gasoline?
13
         A. I have not, unless it was in my binder and I
14
      haven't seen it, seen a contract with Hess, the contract
15
      with Hess, which is where I'd go to look for it. So I
1.6
      don't know, is the answer.
17
         Q. Do you recall, when you went back to Shell West
18
      In 2005 and you were working on supplies, did you have
19
      agreements or contracts that you entered into that said
20
      no MTBE can be present in the gasoline?
21
         A. Yes, we did.
22
         Q. And who was that contract with?
23
         A. The contract -- we had contracts with Hovensa
      that said that at that time.
24

          Ο.
               Anyone other than Steve Fuller?
11
                                                     11
                                                               Q. With respect to the 1991-1994
          Α.
               No.
12
          O.
               And what did Mr. Fuller tell
                                                     12
                                                            time period, did you ask Mr. Clingan if he
13
                                                     13
                                                            had any knowledge concerning the presence of
      you about the presence of MTBE in gasoline
14
       supplied to CITGO either from on-island or
                                                     14
                                                            MTBE in gasoline provided to CITGO by its
15
                                                     15
      off-island sources?
                                                            suppliers?
16
                                                     16
               He confirmed that we could
                                                               A. I did not ask the question of
17
      identify shipments into Puerto Rico that did
                                                     17
                                                            Bob Clingan.
18
                                                     18
                                                               Q. Did you ask anyone whether or
       contain MTBE.
19
                                                     19
                                                            not MTBE was present in gasoline supplied to
          Q. Beyond identifying individual
20
      shipments, did Mr. Fuller indicate to you if
                                                     20
                                                            CITGO in the 1991 to 1994 time period?
21
      he knew whether or not gasoline supplied to
                                                     21
                                                               A. I inquired if anyone might have
22
      Puerto Rico, for example, in the 1991 to 1994
                                                     22
                                                            knowledge of that, and no one did.
23
       time period, whether those -- that gasoline
                                                     23
                                                                  Inquired of whom?
                                                               Q.
24
                                                     24
                                                                    Just -- I was -- inquired of
       contained MTBE?
                                                               A.
                                                                                             Page 414
                                        Page 412

             MS. HANEBUTT: Objection to
                                                      1
                                                            Steve Fuller if there might be someone still
 2
          form.
                                                      2
                                                            present in the organization who might have
 3
                                                      3
          A. I did not discuss 1990-'94 with
                                                            knowledge, and he indicated he did not think
 4
      Mr. Fuller, per my recollection.
                                                      4
 5
      BY MS. O'REILLY:
                                                      5
                                                                  Did you look for any documents
 6
                                                      6
                                                            which indicated to you whether or not MTBE
          Q. In your conversation with
 7
                                                      7
                                                            was present in 1991, 1994 time period?
      Mr. Fuller, did he know beyond specific
 8
      documents identifying the presence of MTBE,
                                                      8
                                                               A.
                                                                    No.
 9
      did he know whether or not MTBE was regularly
                                                      9
                                                                    And designated issue number 20,

                                                     13
                                                            oxygenates delivered to and/or marketed to or
          form and the compound form of the
14
          question.
                                                     14
                                                            within the Commonwealth of Puerto Rico.
15
                                                     15
               Yes. He indicated that it was
                                                                   What did you do to prepare?
16
      common for MTBE to be in the gasoline from
                                                     16
                                                               A. Again, I reviewed the documents
17
      PDVSA.
                                                     17
                                                            that were provided by our sources.
18
                                                     18
                                                               Q. Did you identify any product
      BY MS. O'REILLY:
19
                                                            codes that indicated the presence of MTBE or
          Q. And what about Hovensa?
                                                     19
20
                                                     20
              His indication was that it was
                                                            any other oxygenates?
21
                                                     21
      not typically in product from Hovensa.

 We identified product codes,

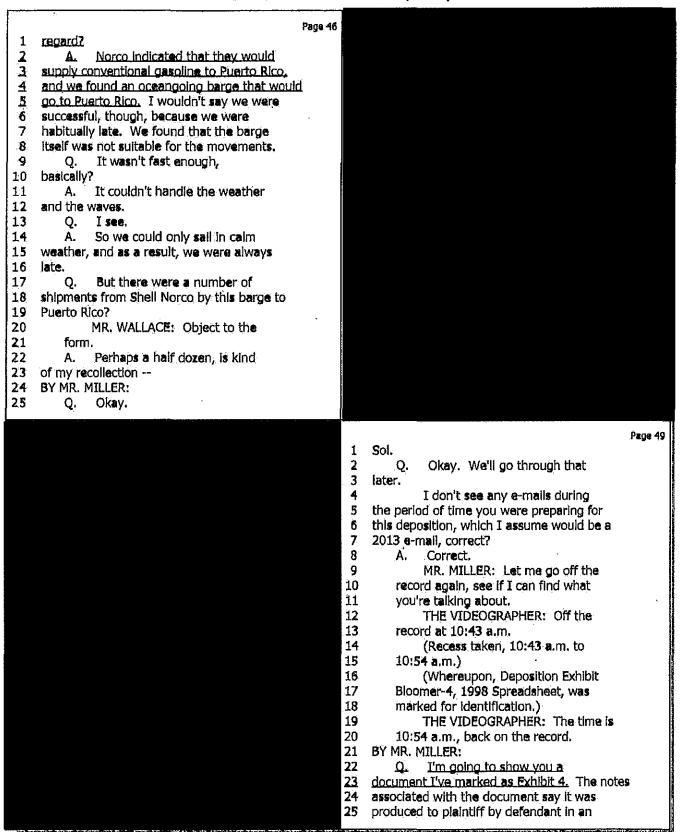

22
                                                     22
                                                            but I don't think the product codes
          Q.
              And what about Shell Yabucoa?
23
               I don't recall him having any
                                                     23
                                                            themselves would indicate that they would
24
      knowledge of the product specifications for
                                                     24
                                                            necessarily not have oxygenates in them.

                    form as outside the scope.
  2
                               No idea.
   3
           BY MR. MILLER:
                                Okay. In order to understand
                    Q.
   5
           the time period that may be involved, it
           might be helpful to have some understanding
           of what was happening with Marayen that led
  8
           them to be something less than a reliable
  9
           supplier, somebody you needed to consider
           replacing with a different source.
10
11
                              Did it have anything to do with
12
           an event involving the Venezuelan government:
13
           and their relationship with the United
14
           States?
                              MR. WALLACE: Object to the
15
16
                    form.
                             I don't know. Someone from
17
                    A.
          Shell Puerto Rico may have a better feel for
18
19
           that, or Shell West. All I know is that I
20
           received a call from Shell Puerto Rico
           requesting assistance.
21
          BY MR. MILLER:
22
                               Okay. Do you remember who
23
                    Q.
24
          called you?
25
                             No. unfortunately, I don't.
                    Α.
                                                                                                             Page 45
                               When you received that call, it
  2
          was in the late '90s, correct?
 3
                              That's my recollection, yes.
                    À.
  4
                               And it's also your recollection
          that they were looking for an alternate
          source of supply to Maraven, their prime
 ð
           supplier?
 Z
 8
                              MR. WALLACE: Object to the
 9
                   form.
                              They were looking for an
10
                    A.
          alternate form of supply because they were
11
           having problems with their usual supplier.
12
13
           BY MR. MILLER:
14
                               And as you recall, that was a
                    Q.
15
          Venezuelan refinery?
16
                              That's a recollection I have.
                   Α.
                                Okay. Then what did you do to
17
                    Q.
18
          help?
19
                               I approached the locations in
20
          the Gulf Coast -- Deer Park and Norco -- to
21
          see if either of them were interested in
22
           supplying Puerto Rico, and whether we could
          find marine equipment that would make it down
23
24
         there.
25

And, also, there are no Bates numbers, which is an oversight we probably ought to correct, given the	

```
Page 89
      Gasoline," correct?
 1
         A. Yes
 2
         Q. This is something you would
 3
      have read at the time?
         A. Yes.
 8
             MR. MILLER: Here's an extra
 7
          copy.
      BY MR. MILLER:
 8
         O. The e-mail from Brian Davis
 9
      that was copied to you states, "Do you have
10
      any background material on the environmental
11
      issues associated with MTBE and the position
<u>13</u>
      on phase-out in USA? The reason is that we
13
14
      want to approach the authorities in
      Puerto Rico (who tend to follow New York EPA)
15
      to find out their views on the continued use,
16
      or not, of MTBE in gasoline there. Our
<u>17</u>
18
      country chairman (Juan Vasquez) plans to meet
      with authorities next week."
19
             Were you in a position to
20
      respond to Mr. Davis' e-mail after you
21
      received it and supply him background
22
      material on environmental issues associated
23
24
      with MTBE as of 2004?
         A. I believe that would have gone
```

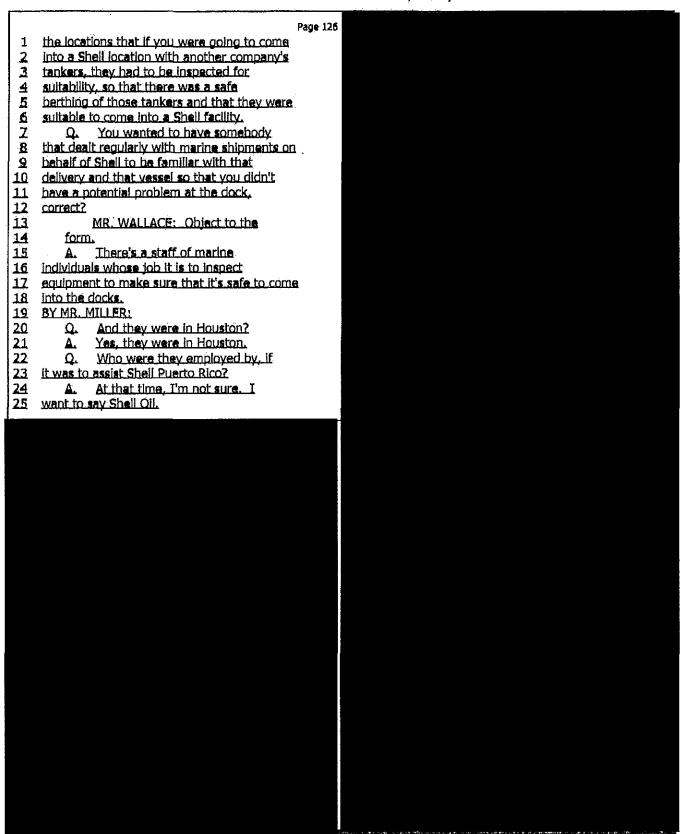

23 (Pages 86 to 89)

```
Page 90
      to other groups within Shell for the actual
 2
      response with regards to the environmental
      issues associated with MTBE and contact with
 3
      the governments.
 5
          O. Okay. That would be somebody
 6
      in Houston?
 7
          A. Most likely.
 8
              Okay. And what group were you
      familiar with at the time that you understood
 2
10
      would have that kind of information?
          A. Typically, that would be
12
      external affairs who handle our contact with
13
      the government.
          O. And was that part of Shell in
14
15
      the United States?
          A. Yes, there's -- Shell U.S. has
<u>16</u>
<u>17</u>
      an external affairs group.
          O. Okay. When you say "Shell
<u>18</u>
      U.S.," you mean Shell Oil Company in the
18
20
      United States?
21
         A. Correct.
22
              There's a response to that
      e-mail by Paige, suggesting that Juan Vasquez
23
      contact David Harrington, external affairs,
24
      to coordinate the response on MTBE, and it
25
                                         Page 91
      says, "David is the manager of external
 1.
 2
      affairs in the U.S.," listing a phone number
 3
      in Houston, correct?
 4
          Α.
              Yes.
 5
          Q.
               Do you happen to recall this
 б
      event?
 7
              No, I'm afraid I don't.
          Á.
          Q. Do you recall generally that
 ä
      there was some interest in Shell Puerto Rico
 9
      in obtaining MTBE gasoline?
10
              MR. WALLACE: Object to the
11
12
          form.
          A. My memory is that Shell Puerto
13
      Rico did not want MTBE in their gasoline.
14
      BY MR. MILLER:
15
16
          Q. Is there any reason why the
17
      country chairman would have to approach
      Puerto Rican regulators to discuss MTBE, if
18
19
      he didn't want it in the gasoline?
20
          A. I wouldn't know.
              MR. MARQUES-DIAZ: Objection,
21
22
          speculation.
23
      BY MR. MILLER:
24
          Q. How does -- can you tell me
      your understanding of why Shell Puerto Rico
```

Page 125
              "QUESTION: And they wanted to
 2
    sell to you. Who did you call in Houston?
 3
              "ANSWER: I don't remember the
    name now. I don't remember the name.
 4
 5
              "QUESTION: And why did you
     call Houston? Did you need approval to buy
 6
7
    from Hess?
8
              "ANSWER: No, because I have
    instructions that if anything out of the
9
    area, to notify them immediately.
10
              "Okay.
11
              "Because they have to inspect
12
13
    the tankers. If the tanker is a suitable
14
    transport carrier, they will leave. The
15
    reason is why you're here."
16
              Do you see the quote?
17
              I do.
         Α.
18
              Were there instructions, to
19
    your knowledge, from Houston to Shell Puerto
20
    Rico that if they were using a seller from
21
    off Island, they should contact Houston to
22
    make sure that the vessel being used for
23
    transport was suitable, or words to that
<u> 24</u>
    effect?
25
              There was a standing for all

     Q And did you determine during that investigation that
 1
 2
     there were complaints about the taste and odor of water from
 3
     that well that was operated by the municipality involved?
     A Yes.
 5
     Q
          Who were the taste, who was making the taste and odor
 6
     complaints?
 7
     A I was told that some people which were served by that
     utility had made those complaints.
          And did you determine what concentration of MTBE was
10
     present in their drinking water in some way?
11
     A I, I believe we did. I don't recall specifically what
12
     those concentrations were in their drinking water.
13
         Are we talking about parts per billion?
     Q
14
         Yes.
     Q So is it fair to say that by 1981 Shell Oil Company
15
16
     knew that MTBE and its gasoline could contaminate public
17
     drinking water supplies?
18
     Α
         Yes.
         And is it also fair to say that they knew by that time
19
     that it created taste and odor problems in public drinking
20
21
     water supplies?
22
         Yes.
<u>23</u>
     Q
         And did you report those facts to Shell management?
<u> 24</u>
     Α
         Yes.
25
         How did you do that?
     Q
```

LIABILITY LITIGATION

: MDL 1358 (SAS): : No. M21-88

This Document Relates to:

Commonwealth of Puerto

: Case No.

Rico, et al.

Shell Oil Co., et al.

: 07-CIV-10470 (SAS)

The Videotaped 30(b)(6) deposition of:

LUIS PAGÁN-RODRÍGUEZ,

special aide to the Secretary of the Department of Consumer Affairs of Puerto Rico was held at O'Neill & Borges, 250 Muñoz Rivera Avenue, Suite 800, San Juan, Puerto Rico, on Thursday, November 14, 2013, at 9:14 a.m.

Reported By: Derek L. Hoagland

California CSR No. 13445

#### Luis Pagan-Rodriguez

#### Page 58 Page 60 the information supplied by companies that import 1 1 A. That is true. 2 gasoline to Puerto Rico. Can we talk about that a 2 Q Can you explain that answer? 3 3 little more? A Well, what we do regarding this 4 A Yes. 4 analysis, as I stated before, is we check that O What information does DACO collect 5 they arrive within the stipulated time period that 6 regarding the gasoline that is imported to Puerto 6 is specified in the order. And -- well, 7 7 specifically we observe the order that the -- that . A There is a really long list in one of . 8 it should not include any MTBE, so then, 9 • the orders, and we have practically spoken about specifically, we do check that the results are 10 all of them here, which includes the quarterly, 10 negative for MTBE. 11 the half-yearly reports, the audited financial 11 But I have to clarify that we are not 12 statements, and when they receive the fuel, the 12 experts in environmental issues, so simply what we 13 bill of lading. And well, what we spoke about. <u>13</u> do, that if the order says there can't be MTBE, we 14 Q When a supplier of gasoline brings 14 check that there is none. 15 petroleum products to Puerto Rico, do they have to 15 Q And, specifically, you're checking 16 supply information to DACO? 16 whether there is MTBE above the permitted amount, 17 A Yes. 17 right? Q What do they have to give to DACO? 18 18 A Yes. 19 A They have to give us the bill of-19 Q And I just want to clarify, is it your 20 understanding that MTBE is permitted to be in 20 lading. And together with the bill of lading, 21 21 they do some lab tests, which they supply us also. gasoline in Puerto Rico at levels less 22 Q And what does DACO do with the bill of 22 than 0.5 percent per volume? 23 lading information? 23 A Yes, that is what the order you have 24 24 A It corroborates the gasoline supplies in your hands establishes. Page 59 Page 61 that exist in the island and when it was that it 1 Q Right, I want to make sure I got it 1 2 2 correct. Anything above 0.5 percent per volume 3 Q What does DACO do with the gasoline 3 would not be in compliance; is that correct? 4 supply information on the island? 4 A That is correct. 5 A Well, it's tabulated, and in the case 5 Q What would DACO do if they discovered 6 gasoline that, according to the certificates of that there is a national emergency, then it can be 6 7 provided to the Department of Energy. 7 analysis, contained MTBE above 0.5 percent by 8 Q Okay, And what does DACO do with the 8 volume? 9 , A We have to notify the EQB and, well, certificates of analysis? 10 A Well, the certificates of analysis --10 obviously, they would be fined. 11 well, we have to -- very few people working with 11 Q Okay. In the time that you have been 12 12 us. I already told you that it's only two of us. with DACO in your position, in your current 13 position, have you ever discovered gasoline coming 13 So what we verify is that the certificates of 14 analysis are updated. 14 into Puerto Rico above 0.5 percent per volume? 15 15 Q Okay. Do either you or the other A No. person who review the certificates of analysis go 16 Q Okay. In the time that you have been 16 through all of the parameters that are tested for? 17 doing this job, have you seen MTBE present in 17 18 A Not necessarily. 18 gasoline coming into Puerto Rico, but below Q Okay. Can you tell me what you do 19 0.5 percent volume? 19 20 20 look at and why you only look at those? I A The ones I have seen have zero. 21 apologize. It is not a clear question. 21 Q Okay. And when certificates of 22 I think you testified that you don't 22 analysis are submitted to DACO by the suppliers of gasoline, are -- is every certificate of analysis 23 23 necessarily look at every parameter that's tested 24 for in the certificates of analysis; is that true? 24 checked by either you or Ms. García?

1	(Whereupon, the document is marked for	1	A. Yes.
2	purposes of identification as Deposition	2	O. And Shell received this easoline?
3	Exhibit No. 30.)	3	A. Yes.
4	THE DEPONENT: Yeah, this is a spot	4	This is very funny.
5	purchase from HESS Oil.	<b>.</b>	Q. Why?
6	BY MS. O'REILLY:	£	A. I tried to purchase gasoline from HESS Oil
7	Q. By Shell Puerto Rico?	2	for many years and they don't went to sell us to Shell
8	A. By Shell Puerto Rico.	8	Puerto Rico. And suddenly in one day they give me a
9	Q. And you received the product, yes?	2	call on the phone if I want gasoline. I got on the
10	A. Yes.	10	phone and called the people in Houston and I told them
11	Q. Okay.	11	and they said. "No kidding?" I said. "They want to
12	THE REPORTER: This would be 31.	12	sell us." And they also give us the transportation.
13	(Whereupon, the document is marked for	13	And I called HESS and I say, "Yes, we are
14	purposes of identification as Deposition	14	interested in buying from you." And they were so
15	Exhibit No. 31.)	15	interested in buying selling the gasoline to us, and
16	BY MS. O'REILLY:	16	they sent the manager, the marine manager, in a plane,
17	Q. Just a couple of more.	17	in one of the company planes, to meet me in San Juan
18	A. Yes, this is another spot purchase from	18	the same day.
19	HESS Oil.	19	Q. Wow.
20	Q. To Shell?	20	A. After that we did some purchases. But
21	A. To Shell Puerto Rico.	21.	that was incredible. Everybody was- when I told them,
22	Q. And they received delivery of the	22	"No, it can't be done."
23	gasoline?	23	Q. And they suddenly wanted to sell to you.
24	A. Yes.	24	Who did you call in Houston?
25	THE REPORTER: This would be 32.	25	A. I don't remember the name now. I don't
	54		
1	(Whereupon, the document is marked for	1	remember the name.
2	purposes of identification as Deposition	2	Q. And why did you call Houston? Did you
3	Exhibit No. 32.)	3	need approval to buy from HESS?
4	THE DEPONENT: Yes, this is another	4	A. No. hecause I have instructions that if
5	purchase from Shell to HESS Oil and Shell	<u> 5</u>	anything out of the area, to notify them immediately.
6	received the product.	<u> </u>	O. Okay.
7	BY MS. O'REILLY:	7	<ul> <li>Because they have to inspect the tankers.</li> </ul>
8	Q. HESS sold to Shell?	2	if the tanker is a suitable transport carrier they will
9	A. HESS sold to Shell.	2	leave. The reason is why you're here.
10	Q. And Shell received the product?	10	THE REPORTER: (To the deponent) "The
11	A. Yes.	11	reason is" what?
12	Q. Okay, The last one.	12	MS. O'REILLY: (To the reporter) Why I'm
13	THE REPORTER: This would be 33.	13	here.
14	(Whereupon, the document is marked for	14	BY MS. O'REILLY:
15	purposes of identification as Deposition	15	Q. Lawyers, "Abogados."
16	Exhibit No. 33.)	16	A. After that we have about a year buying
17	MR. MARQUES: Counsel, do you know where	17	from them gasoline every week and they had the tankers
18	you got this document? It's not Bates stamped.	18	also so you have no problem.
19	MS. O'REILLY: Yes, it is.	19	Q. So you could get big quantities from
20	MR. MARQUES: Oh, it is? Oh, it's this	20 21	gasoline from HESS instead of just lots of little
21	way. Okay.	21	purchases, yes? "Yes"?
22	THE DEPONENT: Yes, this is the same.	23	A. Yes,
	BY MS. O'REILLY:	43	O. How often did you communicate with Houston
23	O T. At.la d. 19	19.A	shout supply issues in Duarte Blood
23 24 25	Q. Is this a delivery of a tanker of-tank gasoline from Hovensa to Shell?	34 35	about supply issues in Puerto Rigo?  A. Almost every week.

5 to buy from company sources. That's why we purch 7 you should buy from? 8 A. No. 9 Q. Did they ever suggest to you someone that 10 inPusto Rico? 11 A. Yes. 12 Q. How often? 12 A. Yes. 13 A. About aver receive seasoline from Houston 16 inPusto Rico? 18 A. About avery other month. 19 G. Every other month it came from the 19 refinery in Houston? 10 A. Yes. 11 A. Yes. 12 Q. No? You don't remember? 13 A. No. 14 Q. No? You don't remember? 15 A. Yesh. Not Houston. Down south. 16 A. Yesh. Not Houston. Down south. 17 Q. Louislana? 18 A. Louislana. 19 Q. Did it have MTBE in it? 19 A. Louislana. 19 Q. Did it have MTBE in it? 10 Q. Roy. 21 Q. Por a veer? It was tenkers? 22 A. For about a veer. 23 A. They were barges. The tanker converted 24 Q. How does that work? 25 A. They ware barges. The tanker converted 26 Q. Oh. Okay. 27 Did you ever go to Louislana to see the refinery? 28 A. The tanker, they strip off the equipment and they instead of having a barge pulling the barge. 29 Q. How does that work? 20 Q. How does that work? 21 Did you ever go to Louislana to see the refinery? 29 A. They were bout what year you received shipments from Louislana? 20 Q. Oh. Okay. 21 So doy to remember. 22 Q. Oh. Okay. 23 A. They were around '99. 24 A. About a veer around '99. 25 A. A Wash thir - think it's called NOLA or something like that, the Louislana refinery? 26 A. A Wash thir - think it's called NOLA or something like that, the Louislana refinery? 27 A. A Not that I know now. We have CAPECO, Sun Did, Shell, Phillips. Mainly we buy from Shell companies and they were suggested by Shell Chemical. 28 Q. And Shell Chemical was based in Houston. 29 Q. And Shell Chemical was based in Houston. 20 Q. And Shell Chemical was based in Houston. 20 And Shell Chemical was based in Houston. 21 MR. TRELLES: Okay. Thank you.		57		59

	Page 10		Page 12
1	doesn't give us a clear record. So will you try to give	1	Q. In what region are you manager of?
2	a verbal answer?	2	A. It's a global team, so I have global
3	A. I will.	3	responsibilities.
4	Q. Okay. If at any time today you need a break,	4	Q. Okay. And just for the record, can you tell us
5	let me know and we'll take a break. We usually try to	5	what HSSE stands for?
6	take a break about right around every hour or so to give	6	A. Health, safety, security, and environment.
7	everybody a chance to stretch their legs, but if you	7	Q. Okay. And do you recall you mentioned the
	need a break in between that, just let me know and we	8	CCA, and just for the record, can you state what that
	can take one. Okay?	,	stands for?
10	A. Okay.	10	A. Caribbean and Central America.
11	Q. I know we're going to be going back over some	11	Q. And was it always called CCA when you were in
12	events that occurred quite some time ago. If at the	12	that group?
13	time I ask you a question you can't remember something,	13	A. Yes. I think the official title was Shell CCA
14	but you remember it later in the day, maybe a document l	14	Limited, I think, but we tended to refer to it as the
2.5	show you refreshes your recollection, please let me know	15	CCA cluster. It was a cluster organization.
16	and I will give you an opportunity to add your testimony	16	O. Okey. And how long were you involved with the
17	to the record. Okay?	17	CCA cluster in HSSE?
18	A. Okay. Thank you.	18	A. I moved to Santo Domingo and took up my role as
19	Q. All right. Did you do anything to prepare for	19	the CCA HSSE manager in April 1999. I returned to
20	your deposition today?	<u>20</u>	London at the end of January 2002, so that was the
21	A. Yes. I reviewed documents relating to the case	<u>21</u>	period when I was the HSSE manager for CCA, but when
22	and I had various discussions with my counsel.	<u>32</u>	returned to London. I then was appointed to be the HSSE
23	Q. Okay. Did you talk to anyone other than your	<u>23</u>	manager for the south zone. The cluster was part of the
24	counsel?	34.	south zone organization, so as the zonel HSSE manager. I
	Page 11		Page 13
1	A. I spoke to a few colleagues, both present and	1	continued to be involved with CCA and the rest of the
2	retired, who worked with me during the period I was in	2	zone for the next just over two years.
3	the Caribbean.	3	Q. So approximately until 2004?
4	Q. Who did you speak to?	4	A. Yes. I moved, changed jobs, I think it was
5	A. I spoke to Ted Tomes, who was the distribution	5	April 2004. The south zone covered Latin America,
6	manager during that period. I spoke with John Bullock,	•	Central America, and all of Africa.
7	who was my line manager at that period. I spoke with	7	Q. And when you arrived at in Santo Domingo in
	George Varny, who succeeded me as the HSSE manager for	_	April of 1999, what was your prior position? What was
10	the CCA cluster. And obviously I've kept my line .	9	your position just prior to that?
10	management and functional management advised of the fac		A. I was the HSSE manager for the marketing
11	that I've been deposed.  Q. Okay. Your current line manager?	11 12	operations in Shell UK.  Q. Did that involve gasoline?
13	A. My current line management, yeah.	13	Q. Did mar involve gasoline?  A. Yes.
14	Q. What's your current position?	14	Q. Was that retail stations?
15	A. I'm currently the manager of the HSSE	1.5	A. I didn't have responsibility for the retail
16	functional services team, and we call it an FDG, a	16	business from an HSSE point of view.
17	functional delivery group, for the downstream	17	Q. I'm sorry. You didn't?
18	businesses.	18	A. I didn't.
19	Q. And "downstream," downstream of refineries?	19	Q. Okay. So marketing would be terminals?
20	A. That includes everything in the supply chain,	20	Distribution?
21	from the refineries right the way through the supply	21	A. It included the terminals, distribution. It
22	chain to the end user. So it would include the retail	22	included the commercial businesses, which included
23	sites, various commercial businesses, and distribution	23	distributors. It included businesses such as LPG,
24	activity, and so on.	24	aviation, bitumen, those businesses. Excluded was the

#### Page 14 Page 16 refinery activity and the retail activity. That wasn't 1 1 Shell was involved with? 2 part of my remit. 2 MR, WALLACE: Object to the form. Vague and 3 O. Okay. When you were HSSE in the CCA, did you 3 ambiguous. £ have responsibility for retail stations? Was that part 4 Q. He's objecting to put an objection on the of your remit? record so later, if we have a disagreement about whether 5 € A. Yes, in the sense that I was the HSSE manager your testimony comes into evidence, he has his 7 2 for the cluster, and as such I was responsible for objection, but you can answer unless he instructs you 8 advising all of the businesses in the cluster in 2 not to. relation to HSSE matters, which would have included 9 A. From my recollection, it was one of the larger 2 retail. I wasn't directly responsible for the retail 10 10 markets that we operated in across the -- across the 11 cluster in terms of the size of the business, the number 11 business. 12 Q. Okay. Do you recall who was the HSSE 12 of sites. Q. Were you -- you indicated you left in January 13 individual in Puerto Rico who reported to you? 13 14 A. We had an environmental advisor called 14 2002. Were you involved at all in the process by which 15 Vanessa Rodriguez based in Puerto Rico. During my time Shell purchased the Yabucoa facility? 16 as the HSSE manager for CCA, her employment was 16 17 terminated and she was replaced by Brenda Torano, my 17 Q. Were you -- when you were working for CCA, were 18 predecessor, and it wasn't an exact like-for-like 18 you aware that Shell was in the process of purchasing 19 replacement, it was a gentleman named, if I recall 19 the Yabucoa facility? 20 20 A. Yes. correctly, Raphael Jiminez, and he was based in Puerto 21 Rico, and he retired shortly after I was appointed. 21 Q. Was someone else from an HSSE perspective 22 There were various other people in Puerto Rico 22 involved in that process? 23 who would have had some involvement in HSSE matters. 23 A. I don't know. 24 For example, in the retail business there was a retail Q. Did you ever visit the Yabucoa facility before Page 17 Page 15 1 you left? 1 engineer, who, if I recall correctly, became more 2 2 involved in HSSE. Carlos Rodriguez, I believe, his name A. No. No. 3 3 Q. Was Yabucoa the only refinery, to your was. 4 understanding, that Shell owned and operated or -- at 4 O. Did -- was Ms. Torano working for Shell Puerto 5 that time period in the Caribbean area? 5 Rico when -- before she replaced Ms. Rodriguez? MR. WALLACE: Object to the form. You can 6 A. No. £ 7 <u>7</u> Q. What other refinery did Shell operate, to your answer. 8 8 Q. If you recall. understanding? A. As far as I recollect, she was appointed during 9 A. In the Caribbean area, they operated the 2 my tenure in the role, and she was initially working in 10 Refidomsa refinery in Dominican Republic, which was a 10 11 Joint venture between Shell and the Dominican 11 support of Vanessa Rodriguez, but she was employed by 12 12 Shell Puerto Rico. government. O. So when she became environmental advisor, who 13 Q. And what was the name of the refinery? I 13 14 was she employed by? apologize. 14 <u>15</u> A. Shell Puerto Rico. 15 A. Refidomsa. 16 16 O. Oh. still Shell Puerto Rico. Okav. A. She was always employed by Shell Puerto Rico. 17 17 A. Which was basically just outside Santo Domingo O. Okay. And Ms. Rodriguez was also employed by 18 in the Dominican Republic. 18 19 Shell Puerto Rico? 19 Q. Okay. A. Correct. 20 A. That was the only other refinery which we 20 21 21 O. Okay. operated in CCA. 22 Q. Okay. Did you ever visit the Catano terminal? 22 A. That's my understanding. 23 Q. In the Caribbean area, which -- was Puerto Rico 23 A. Yes. fairly large in terms of the number of retail sites that Q. Did you have responsibility for HSSE matters at

5 (Pages 14 to 17)

Page 18 Page 20 1 A. Yes. 1 the Catano terminal? 2 MR. WALLACE: Object to the form. You can 2 Q. And you recall she was replaced with Ms. Torano. Do you recall approximately when that 3 answer. A. I was responsible for - I was the line manager 4 4 5 5 for the HSSE team in -- across CCA, so we had a team of A. Approximately 2001. During 2001. 6 6 HSSE advisors who ultimately reported to me. So in the Q. Okay. When you arrived in the CCA in Santo 7 sense that a member of my team or members of the team Domingo in April 1999, were you aware of MTBE? 8 would have been responsible for providing HSSE advice 8 MR. WALLACE: Object to the form. Vague and ambiguous. Go ahead and answer to the extent you 9 9 and support to Catano, as well as every other aspect of 10 the operations and activities in Puerto Rico, I had, 10 can understand the question. 11 A. In April '99 when I arrived in my role in CCA, 11 ultimately, responsibility, but it wasn't a direct 12 12 at that point, as far as I recall, I had not had any responsibility in the sense of, you know, me personally. 13 It was through my line. 13 involvement in MTBE or any issues associated with MTBE Q. Did you ever visit the facilities, the Peerless 14 Q. After you arrived, at any point did you learn 14 . 15 facilities? 15 that MTBE was an issue in the CCA? 16 A. No. 16 MR, WALLACE: Object to the form. 17 O. Did Ms. Rodriguez have responsibility both for 17 A. After I arrived, during the latter part of '99 the distribution at the Catano terminal and the retail 18 I was made aware of the MTBE issue from a global 11 19 19 stations in Puerto Rico? perspective and thereafter started the process to 20 MR. WALLACE: I'll object insofar as the determine whether or not it was an issue in the very 20 many markets that the CCA cluster covered, of which question calls for speculation, but you can answer 21 21 22 22 if you know. Puerto Rico was just one, 23 Q. And when -- what were you made aware of in 23 A. I do know in the sense that I think the use of 24 terms of MTBE being a global perspective? 24 the word responsibility is incorrect. Page 21 Page 19 1 O. Okay. 1 A. I was made aware of the fact that particularly 2 A. She didn't have responsibility as such, but as 2 in the US that it had become a significant issue, I the environmental advisor employed within the CCA 3 think particularly on the west coast, in California, that there had been a number of legal actions initiated 4 cluster based in Puerto Rico, she would have been 5 against the oil industry and that there were a number of responsible for providing advice to all aspects of our 5 issues associated with the use of MTBE and the potential operations. 7 impact that it -- it may have in certain environments. 7 O. Was she the one responsible, for example, if an 1 environmental investigation needed to be undertaken at a Q. And did you -- once you became aware of the MTBE issue, did you go to any workshops or training 2 retail station? 10 10 sessions that were held to understand further MTBE? MR. WALLACE: Object to the form. 11 MR. WALLACE: Object to the form of the O. Was she the individual responsible for setting 11 12 12 that up and undertaking that? question. 13 13 A. She would have been the person that would have A. Not specifically to discuss just the MTBE issue or to be trained on MTBE. It's possible that I would 14 worked with the retail business advising them on how to 14 <u>15</u> approach such an activity. She was the local 15 have attended leadership team meetings. I frequently 16 16 environmental expert, so she would have given -came back to London for leadership team meetings, and 17 it's possible that MTBE may have been an issue on those provided advice to the business, worked with the 17 18 agendas, but it would have been just in the sense of 18 business in terms of how that was done, which 19 19 contractors to use, what methodologies to use, and so keeping us updated on the latest developments in terms on. She wouldn't have actually done it herself, but she 20 of managing MTBE as an issue. 20 21 Q. Were you aware at any time that there were 21 would have provided that advice. 22 committees or leadership teams that -- in the 22 Q. Okay. Do you recall, was Ms. Rodriguez there 23 during the entire -- was she there when you arrived in 23 environmental section of Shell that were discussing MTBE specifically? 24 CCA?

27 25 1 country, or the general manager here in the country, 1 monitor leaks, was monitoring the wells on a monthly 2 and they reported directly then to England. 2 basis. 3 3 Q. You're taiking about the tank field wells? Q. Who was your general manager while you A. Correct. 4 were at Shell, or who were your general managers while 4 Q. Was it your understanding that those tank you were at Shell, if you remember? field wells were oftentimes dry? A. Yeah. If I recall, it was Johnny Vazquez, 6 7 and then, if I remember, it was Juan Carlos, and it was 7 8 2 Q. So they monitor them only through vapor a transition process, but I don't remember his last .measurements, correct? name. And afterward with Sol it was Candido Rivera. 10 Q. "Claudio"? 10 A. They would monitor them for both. It THE INTERPRETER: "Candido." 11 11 depended on the case, whether it was- how the well was MS. O'REILLY: "Candido." 12 12 or the station. BY MS. O'REILLY: 13 Q. Monitor for both groundwater and vapor? 13 14 A. Yes. If I remember correctly. 14 Q. And did you ever go to England for 15 Q. And did they also monitor for free training? 15 product? 16 16 A. No. Q. Did you ever have training outside of 17 A. Correct. That's the purpose also. 17 18 Q. Did you ever recommend at any time when 18 Puerto Rico with Shell? you were in HSE that they install an additional 19 A. Yes, meetings or seminars that were given 19 tank-monitoring system that did what the Veeder-Root 20 20 within the same organization. Q. And what to you is "the same 21 did in monitoring interstitial space and other types of 21 22 leak detection? 22 organization"? What do you mean by that? 23 A. We had meetings to inform about a work or 23 A. No, I don't remember having recommended additional systems as part of the implementation. 24 implement programs with the engineers, the people who 24 Q. Was the decision to utilize USTMAN instead 25 were in the cluster group, and it would have been a 25 26 1 of Veeder-Root made before you joined Shell, do you 1 work group from this area, the Caribbean or Central 2 recall? 3. America. Q. Did you ever meet with or interact with 3 A. Yes. When I arrived at Shell the system 3 was either already running or starting to run. 4 people from Shell Oil Company in USA? Q. Did you ever talk to anyone about the A. No, we couldn't have communication with USTMAN system and why they went with USTMAN instead of 6 Shell USA. Veeder-Root? 7 Q. Did Shell, any Shell entity, provide you A. No, I don't recall. with information about remediation at gasoline Q. Do you know who made the decision to do stations? Did they come and give you technical advice 9 the USTMAN system? about how to proceed with remediations at stations? 10 10 Did you get technical advice from anyone? 11 A. No. 11 12 O. Did you communicate with people on a 12 MR. MARQUES: Objection. Compound. BY MS. O'REILLY: regular basis in other Shell entities other than Shell 13 <u>13</u> 14 Q. You can answer, if you can. 14 Puerto Rico as part of your job? 15 A. At the beginning I did not, but then and 15 A. There wasn't a center group within the the people that were in our area, in the Caribbean area 16 cluster that was dedicated to remediation, other than 16 or Central America, and also in England, which was our 17 sharing information or maybe what consultants were 17 18 doing in a certain area. 18 base. O. And why do say England was your base? 19 Q. Did you work or did you ever see the 19 A. Because Shell Puerto Rico operated-20 consultants who were implementing the investigations 20 reported to England as part of their operating unit. 21 and remediation at the Shell stations in Puerto Rico? 21 22 Q. Do you remember to whom you reported in 22 A. Yes. The consultant would've worked with 23 23 England? us, under me, to investigate the remediation or the A. I didn't report directly over there. I 24 removal of product. reported directly to the sales manager here in the 25 Q. And what consultants do you recall that

53 55 1 O. Okav. amended. 2 But you were employed by Shell Company Puerto 2 O. Okav. 3 Rico Limited, correct? 3 Was Sol-- prior to your e-mail, do you remember if Sol was, or Shell was, testing for MTBE at their 4 A. (Through the interpreter) Correct. 5 Q. Okay. 5 stations at this time? And then this says "Don Johnny." Is that Juan A. At this date, no. 7 Q. Okay. 8 Do you know why they weren't sampling for MTBE? A. Correct. Q. Okay. A. As I indicated previously, it wasn't part 10 And he was your general manager at the time? 10 of the parameters that the agency asked us to sample. 11 11 A. Correct. Q. Okay. 12 Q. And the e-mail that you wrote to him says, 12 And the next sentence says, "They are 13 "During the past week personnel from the Environmental 13 implementing several measures taken during this past 14 Quality Board inform me (not an official communication) year with the Esso's case in Barranquitas to be more 15 several amendments to the UST regulation are going to 15 strict on the regulated community." 16 be proposed for the regulated community during 14 Do you see that? 17 November 28th, 2001, for comments at a public hearing 17 A. Yes. 18 30 days after around December 28th, 2001. Other 18 Q. What were you referring to with 19 amendments proposed are for the UIC plan underground 19 Barranquitas? 20 20 injection control program that regulates the septic A. The description was a case in a service 21 tanks in our 8/8." 21 station where the agency fined Esso 78 or 79 million 22 Does "S/S" stand for "service station"? 22 dollars. They were in a case and it was in progress. 23 A. Correct. 23 Q. Okay. 24 Q. Okay. 24 And it says, "This is something to worry because 25 25 this is going to make our cost to increase, in addition Do you recall your conversation with the 56 to new parameters to remediate in the future." Environmental Quality Board about the proposed changes? 1 1 2 A. No. 2 Do you see that? 3 3 Q. All right, A. Yes. Q. Why do you think that it was going to 4 It says, "The information I gather is that some 5 of the amendments includes additional parameter to be increase the cost? 6 sampled during tank closures and replacement like lead, A. Well, if there are more parameters that we 7 MTBE and other." 7 have to deal with in terms of cleaning, then it 8 Do you see that? 8 increases the cost of remediation. 9 Q. Did you have any understanding as of this A. Yes. 9 time whether MTBE was more expensive to remediate than 10 10 Q. Does this refresh your recollection that 11 there was some interest in sampling for MTBE in or 11 the BTEX compounds? 12 around 2002? 12 A. Not from experience, but in terms of 13 13 MR. MARQUES: Objection, Vague. reading documentation, documents in terms of the EPA, 14 THE DEPONENT: What I remember for that 14 in cases where it explained that this had happened. 15 Q. And was it your understanding, or did you 15 time is that the requirements for underground 16 tanks were from 1992, and what I remember is 16 learn at or around this time, that one of the reasons 17 MTBE needed to be cleaned up was because it imparted a 17 that the Environmental Quality Board was 18 18 bad taste or odor to water? supposed to propose amendments to make changes 19 to that, and as part of those amendments they 19 A. If I recall correctly, it was because it 20 were going to include criteria on MTBE and lead. 20 was part of the information that I had received. They 21 didn't know yet whether it was a carcinogen or not, but 21 BY MS. O'REILLY: 22 22 Q. And did they update the regulations in or I understood that from reading materials. Not by 23 23 around 2001, 2002, to include MTBE, to your experience. 24 24 recollection? Q. Well, do you understand anything about its 2.5 A. No. The regulation has still not been 25 smell or its taste when it was in water, that it didn't

89 91 that time during that model is what is the risk and the 1 Shell London? Do you remember where those came from? 2 actions that need to follow in order just to put either 2 A. (In English) Not precisely, but I'm a remedial action plan or a plan just to implement it. 3 assuming it's from Shell London. 4 But it's -- not only refer just to environmental or-4 O. Okav. issues. It's just to ranking in terms of the risk or Did anyone from Shell London ever come and meet ĭ if an incident happened what was the consequences in £ with you when you were working for Shell? order just to place this one area. And that incident 7 A. Not that I recall. 8 report or the development of that risk asks you to do £ Q. Qkay. 9 something else regarding that. 2 Do you know why Shell -- you said many of the 10 So it's just a figure that it was--I don't 10 documents that had the Shell name on them Shell took 11 11 know--prepared based on the details of--I don't with them. 12 know--millions of recorders during the process of 12 What do you mean by that? 13 development in order to identify what is the risk and 13 A. That if they have the branded or the logo. 14 the conditions and what you need to do in order to, but 14 as part of I'm assuming the process of sales and 15 it's just a figure. <u>15</u> transferring to Sol, they took those documents or 16 Q. Okay. 16 destroyed documents. In terms of saying that it was 17 And that was something— who provided you that 17 guides, it was not the property of Sol. 18 figure? Do you remember? 18 Q. Okay. 19 19 And did you hand those over to somebody? Did A. It's part of documents, of guidelines, of 20 yellow guides, or guides from Shell, that it was part 20 someone come collect them, or did you send them 21 of the process, so ... 21 somewhere? 22 O. Okay. 22 A. We identified it and just put it together. 23 23 You say "yellow guides"? Q. Okay. 24 And then did you hand it to somebody who then 24 A. That's what they call it in Shell before. 25 took care of it? I mean, physically, did you take 25 It's just guldelines. It's yellow guides. 90 92 1 O. Okav. 1 your -- all your Shell things with the Shell logo on 2 2 them and give them to somebody within the company, or A. That's what we call it because everything 3 was vellow. 3 did you send them somewhere? 4 MR. MARQUES: Objection to the form. 4 O. I wonder why. 5 And so the vellow guides was specific for you to 5 THE DEPONENT: No, we just organized them 6 and left them in boxes. ₫ utilize when doing your work for risk assessment. 1 7 A. Yellow guides is a library. It's a BY MS. O'REILLY: 1 8 Q. Okay. And what happened to those boxes? library of documents that Shell have and if you have 9 1 anything to do, you go into there. It's just look now A. I don't know. 10 Did someone come pick up the boxes at some 10 going into the internet. 11 O. Oh. Okav. 11 point? And the library, was that on electronic, like 12 12 A. No, I don't know. <u>13</u> you could access it through your computer? 13 Q. Was there somebody at Shell Puerto Rico during the time of the transition who's responsible for 14 A. (Through the interpreter) It was in paper 14 <u>15</u> format and electronic. 15 those boxes? 16 Q. Where was the paperas when you were at 16 A. I have no knowledge of that. 17 Shell Puerto Rico, where was the paper copy kept? Did 17 Q. Were all the boxes in one room? 18 you have a copy in your office? 1.8 I really don't remember where they were. 19 12 A. There were some guidelines and files <u> 20</u> there, yes, while we were at Shell. When we changed to 20 Did you also, when you changed from Shell Puerto Sol, many of the documents that marked with Shell's 21 Rico to Sol, did your computer, materials that were 21 22 name, Shell took with them. 22 stored on your computer, were those changed as well? 23 Q. Qkay. 23 MR, MARQUES: Objection. Vague. 34 Now, the veilow guidelines, do you remember-24 THE DEPONENT: (In English) Can you repeat did that come from the cluster, or did it come from the 25 the question.

                                                                   to management in order just to attack the sites that we
13
          Do you see that?
                                                             13
                                                                   identified that have any concerns or were in the LUST
                                                                   list sites at the EOB.
14
          A. Yes.
                                                             14
15
          Q. Did you prepare any remediation programs
                                                             15
                                                                       Q. Qkay.
16
      for any of the Shell gasoline stations while you were
                                                             16
                                                                       Did you prepare this remediation plan?
                                                             17
17
      with Shell or Sol?
                                                                       A. I prepared the program. Yes.
18
                                                             18
                                                                       Q. Okay.
          A. I requested and supervised consultants to
19
      prepare the remediation plans in order to submit it,
                                                             19
                                                                       Was the program -- was the program in place when
                                                             20
20
      including the plans.
                                                                   you arrived at Shell?
          Q. Did any of the consultants that you worked
                                                             21
                                                                       A. No. It was part of the process of me
21
                                                             22
     with prepare remediation plans for gasoline station?
                                                                   evaluating the sites and identify what sites weren't
22
23
          A. I'm assuming yes, during the period.
                                                             23
                                                                   leaking in order just to try to get to a no further
                                                             24
24
              THE REPORTER: (To the deponent) I'm
                                                                   action.
                                                                       Q. Okay.
          sorry. Could I get that answer again.
                                                             25
